

load capacity floating body PT05

dimensions: L/B/H= 99,8cm/99,8cm/43cm
dead weight [kg]: 30,00

immersion depth floating body	<u>load capacity</u> (dead weight deducted)	notes
[cm]	[kg]	
5,0	19,8	
10,0	69,6	
15,0	119,4	
20,0	169,2	
23,0	199,1	20cm freeboard to the top of the float
25,0	219,0	
28,0	248,9	15cm freeboard to the top of the float

Advices:

- The load-capacities are always based on an evenly load distribution.
- For the use we recommend a max. immersion depth of the floating bodies of 23cm - 28cm!
(load capacity reserves for temporary overloads available)
