

**load capacity PT06-center piece**

**dimensions:** L/B/H= 82,5cm / 90cm / 70cm  
**dead weight [kg]:** 29,00

immersion depth floating bodies	<u>load capacity</u> (dead weight deducted)	notes
[cm]	[kg]	
5,0	-9,0	
10,0	16,0	
15,0	42,6	
20,0	72,0	
25,0	103,0	
30,0	137,0	
35,0	171,0	<b>1/2 immersion depth of the float</b>
<b>40,0</b>	<b>206,0</b>	
<b>45,0</b>	<b>240,0</b>	
50,0	275,0	<b>20cm freeboard to the top of the float</b>

**Advices:**

- The load-capacities are always based on an evenly load distribution.
- For drive with the boat we recommend a max. immersion depth of the floating bodies of 45cm!  
 (load capacity reserves for temporary overloads available)
